

Vendor collaboration

Seamless collaboration with shared matter status updates

In an era where timely and effective communication is crucial, SimpleLegal's vendor collaboration functionality transforms how in-house legal teams work with their service providers. By enhancing the way matter-specific updates are shared and managed, SimpleLegal ensures improved coordination, efficiency, and overall success in your legal operations.

Benefits for efficient legal collaboration

SimpleLegal's vendor collaboration elevates the sharing of critical matter updates, ensuring your legal efforts are always synchronized and impactful.

Stay synchronized

Keep your in-house team and outside counsel in perfect harmony with real-time status updates. Ensure everyone is on the same page, enhancing collaboration and making your legal efforts more effective and cohesive.

Streamline communications

Eliminate the constant back-and-forth of emails and phone calls. With automated notifications and centralized updates, everyone has instant access to the latest information, reducing unnecessary interruptions and improving efficiency.

Enhance security and control

Safeguard your sensitive legal information with advanced permissions control and detailed audit trails. Only authorized individuals can access and add matter updates, ensuring your data remains secure and your operations transparent. Monitor all activities to maintain accountability and compliance throughout your legal processes.

Availability

SimpleLegal provides the capability for Matter Management customers to share matter updates with vendors. With shared matter updates, you'll have access to:

Real-time matter updates

Instantly share and receive updates on legal matters.

Permissions control

Manage who can view and add matter updates.

Automated notifications

Emails are sent for any newly added or edited updates.
